## Software Engineer

655 East 14th Street, Apt. 10E, New York, NY 10009  
(646) 589-1910 • [evelynlee34@gmail.com](mailto:evelynlee34@gmail.com)

### PROJECTS

#### **OKPizza** • (React, Rails, JavaScript, Flux) **Live** • **Github**

*Single-page React-on-Rails clone of OKCupid*

- ◆ Implements custom Rails association on User Model to filter answered/unanswered questions by user
- ◆ Refreshes question prompt with unanswered questions when user submits an answer
- ◆ Incorporates unidirectional Flux cycle to sync data across profile, question and user view components

#### **PuzzleAppCademy** • (JavaScript, HTML5 Canvas, KineticJS) **Live** • **Github**

*Time-based, orb matching puzzle game built on Canvas with KineticJS*

- ◆ Checks to ensure only three or same colored orbs match with the use of a recursive algorithm
- ◆ Utilizes KineticJS for game piece rendering and movement, allowing for better UX

#### **HacktiveWreckerd** • (Ruby, SQL) **Github**

*Lightweight custom ORM built for Rails*

- ◆ Simplifies querying of SQL databases while allowing creation of associations to join different tables together

### SKILLS

Python • Ruby • Ruby on Rails • JavaScript • React • Flux • SQL • Git • CSS •

### WORK EXPERIENCE

#### **ERP Maestro** • New York, NY • *Dev Support Intern* • 4/2016 - 6/2016

- ◆ Worked closely with developers to build customized reports

#### **Levinson Skin Care** • Granada Hills, CA • *Assistant* • 10/2012 - 12/2015

- ◆ Digitized 500+ customer database, increasing client record integrity

#### **Avalon English School** • Gumi, South Korea • *Teacher* • 10/2011 - 10/2012

- ◆ Improved the English of 50+ students, boosting their test scores

### EDUCATION

#### **App Academy NYC** • 6/2016 - 9/2016

- ◆ Full stack web development course with a < 3% acceptance rate

#### **California State University, Northridge** • 9/2006 - 5/2010 • *Digital Animation*

- ◆ Designed models in Maya for usage in 3D animation
